

Mobiles/Blackberry

At AHS Communications we deal with the 4 major networks so through our dedicated Mobile team, we can offer simple, cost effective mobile tariffs and competitively priced handsets, together with a customised service to meet your individual business requirements.

If you are thinking about upgrading to the latest handsets, our dedicated staff are always available to answer queries, analyse your current bills and advise on the most cost effective mobile tariffs.

Putting everyone on the same mobile plan can really save you money. In addition, you receive one fully itemised monthly bill, which contains all fixed and mobile traffic, which means you can easily track and monitor your mobile calls.

Blackberry

Email: always on, always connected;

Wireless internet: quick access on the go;

Organise your calendar and contacts between your BlackBerry and PC wirelessly;

Phone: fully featured mobile phone;
